KSRM 2026 Poster Presentation List (as of November 13)

Abstract No.	Board No.	Presentation Date	Discussion Time	Abstract Title	Presenter Information
A-0037	**1205-P01**	December 5 (Sat)	10:15 - 10:45 (30')	The Synergistic Value of Time-Lapse Imaging and NGS-Based PGT-A in IVF Culture: A Retrospective Analysis at Harapan Kita Women and Children Hospital, Jakarta, Indonesia	Novita Prasetiawati (Harapan Kita Women and Children Hospital, Indonesia)
A-0066	**1205-P02**	December 5 (Sat)	10:15 - 10:45 (30')	Is routine ICSI indicated for PGT-A cycles in patients with asthenozoospermia? A retrospective comparison of euploidy rates between conventional IVF (cIVF) and ICSI	Min Ji Kim (Mamapapa&Baby Ob/Gy Clinic, Republic of Korea)
A-0118	**1205-P03**	December 5 (Sat)	10:15 - 10:45 (30')	Racial Disparities in Assisted Reproductive Technology Outcomes: A Systematic Review and Meta-Analysis Comparing Asian and Non-Asian Populations	Artha Falentin Putri Susilo (Doctoral Program of Medical Science, Indonesia)
A-0146	**1205-P04**	December 5 (Sat)	10:15 - 10:45 (30')	Is Conventional Amniotic Fluid Cell Counting Sufficient to Detect Fetal Mosaicism After Mosaic Embryo Transfer? Analysis of 100 Cells in Amniocentesis Karyotyping	Eun Jeong Choi (CHA Fertility Center Daegu, Republic of Korea)
A-0095	**1205-P05**	December 5 (Sat)	10:15 - 10:45 (30')	Combined effects of hyaluronic acid and polynucleotides on trophoblast outgrowth and implantation-related gene expression in human Sw71-spheroid model	Park Jiwon (Eulji-University Postgraduate School, Republic of Korea)
A-0097	**1205-P06**	December 5 (Sat)	10:15 - 10:45 (30')	Endometrial Microbiome Status and IVF Pregnancy Outcome: A Multicenter Preliminary Study	Hye Gyeong Jeong (Korea University Anam Hospital, Republic of Korea)
A-0131	**1205-P07**	December 5 (Sat)	10:15 - 10:45 (30')	Fertility quality of life, self-injection burden, and treatment-related stress among Korean women undergoing assisted reproductive technology: a single-center cross-sectional study	Ji Hyang Kim (CHA University School of Medicine, Republic of Korea)
A-0050	**1205-P08**	December 5 (Sat)	10:15 - 10:45 (30')	Euploid Embryo Transfer Is Associated with Improved Pregnancy Outcomes and Mosaic Embryo Transfer Provides Additional Opportunities for Pregnancy	Heeyeon Ryu (Liora Fertility Center, Republic of Korea)
A-0059	**1205-P09**	December 5 (Sat)	10:15 - 10:45 (30')	Similar Total Co-purified Protein Signals Conceal Lot-to-Lot Compositional Differences in Urinary Gonadotropin Preparations	Ji Hyang Kim (CHA Bundang Medical Center, Republic of Korea)
A-0060	**1205-P10**	December 5 (Sat)	10:15 - 10:45 (30')	Impact of Blastocyst Development from Day 3 Grade 3 Embryos on Clinical Pregnancy Outcomes in All-Cryopreserved Cycles.	Ye Won Kim (Mamapapa&Baby Ob/Gy Clinic, Republic of Korea)
A-0081	**1205-P11**	December 5 (Sat)	10:15 - 10:45 (30')	Optimizing OPU-to-ICSI Intervals: Impact of Oocyte Handling Time on Embryonic Chromosomal Competence in Assisted Reproductive Technology	Seung Hwan Oh (CHA University Fertility Center, Republic of Korea)
A-0091	**1205-P12**	December 5 (Sat)	10:15 - 10:45 (30')	Favorable Clinical Outcomes of Hormone-treated Endometrial Preparation in Frozen-thawed Embryo Transfer Cycles for Advanced Maternal Age	Jae Hwan Lee (Creation & Love Women's Hospital, Republic of Korea)
A-0143	**1205-P13**	December 5 (Sat)	10:15 - 10:45 (30')	Enhancing Blastocyst Yield and Embryo Quality with Preconception Electroacupuncture in Couples with Prior IVF Cycle Failure : A Case Series	Wenny Kurniawan (Tangkuban Perahu Clinic, Indonesia)
A-0155	**1205-P14**	December 5 (Sat)	10:15 - 10:45 (30')	Effects of estradiol-loaded collagen scaffold on endometrial regeneration in a rat model	Min Kyung Kwak (Korea University Ansan Hospital, Republic of Korea)
A-0141	**1205-P15**	December 5 (Sat)	10:15 - 10:45 (30')	Time-varying Trajectory of Maternal Morbidity after In Vitro Fertilization: A Nationwide Propensity Score-Matched Cohort Study in South Korea	Jieun Ko (CHA University School of Medicine, Republic of Korea)
A-0058	**1205-P16**	December 5 (Sat)	10:15 - 10:45 (30')	Association Between Intra-cohort Morphological Ranking and Embryo Euploidy According to Maternal Age	Mihee Oh (CHA University, Republic of Korea)
A-0094	**1205-P17**	December 5 (Sat)	10:15 - 10:45 (30')	Morphology-Dependent Clinical Outcomes of Thinning Versus Opening Laser-Assisted Hatching in Morula Transfers	Seok Woo Hyeong (Creation & Love Women's Hospital, Republic of Korea)
A-0051	**1205-P18**	December 5 (Sat)	10:15 - 10:45 (30')	?Evaluation of Automated Developmental Stage Annotation within a Time-Lapse Embryo Scoring System Using Human Image Data and a Mouse Embryo Outgrowth Model	Jong Woo Lee (CNCbiotech, Republic of Korea)
A-0142	**1205-P19**	December 5 (Sat)	10:15 - 10:45 (30')	Endometrial Dysbiosis Is Associated with Reduced Ongoing Pregnancy and Live Birth Following Personalized Frozen Embryo Transfer	Yi-Hsiu Chen (Taipei Fertility Center, Taiwan)
A-0111	**1205-P20**	December 5 (Sat)	10:15 - 10:45 (30')	Cell-Free Mitochondrial DNA in Early Embryo Culture Media: Developmental Competence and Embryo Morphokinetics	Seong Jung Kim (CHA University, Republic of Korea)
A-0075	**1205-P21**	December 5 (Sat)	10:15 - 10:45 (30')	Effects of BGP-15 Supplementation on Bovine Embryonic Development and Stage-Specific Blastocyst Kinetics In Vitro	Shuting Ye (Osaka Metropolitan University, Japan)
A-0116	**1205-P22**	December 5 (Sat)	10:15 - 10:45 (30')	Comparison of clinical outcomes between intracytoplasmic morphologically selected sperm injection (IMSI) and conventional intracytoplasmic sperm injection (ICSI) in the same patient group	Sun-Nyoung Hwang (CHA University Fertility Center Seoul Station, Republic of Korea)
A-0168	**1205-P23**	December 5 (Sat)	10:15 - 10:45 (30')	Dual H3K27me3 and H3K9 methylation establish epigenetic barriers to extraembryonic plasticity	Jeaho Song (Seoul National University, Republic of Korea)
A-0062	**1205-P24**	December 5 (Sat)	10:15 - 10:45 (30')	Effect of recombinant luteinizing hormone supplementation on pregnancy outcomes in women with poor ovarian response: a self-controlled analysis of successive cycles	Ga Won Kim (Mamapapa&Baby Ob/Gy Clinic, Republic of Korea)
A-0080	**1205-P25**	December 5 (Sat)	10:15 - 10:45 (30')	Abnormal sperm parameters in medical examination are associated with varicocele.	Yong-Seog Park (JTS Urology Center, Republic of Korea)
A-0117	**1205-P26**	December 5 (Sat)	15:40 - 16:00 (20')	Therapeutic Effects of BGP-15 on Uterine Fibrosis in Mice	Heera Kim (Seoul National University College of Medicine, Republic of Korea)
A-0138	**1205-P27**	December 5 (Sat)	15:40 - 16:00 (20')	Intrauterine Platelet-Rich Plasma Infusion Improves Endometrial Thickness and Live Birth Outcome in Women with Recurrent Implantation Failure or Thin Endometrium Undergoing Frozen Embryo Transfer	Thi My Trang Luong (Taipei Fertility Center, Taiwan)
A-0022	**1205-P28**	December 5 (Sat)	15:40 - 16:00 (20')	Gynecologist-led obesity management integrated into fertility-sparing treatment in patients with atypical endometrial hyperplasia and early-stage endometrial cancer: a retrospective case series	Eun Hee Yu (Pusan National University Hospital, Republic of Korea)
A-0029	**1205-P29**	December 5 (Sat)	15:40 - 16:00 (20')	HCl-Induced Endometrial Injury Models DAMPs-Related Intrauterine Adhesions in Mice	Bingjie Rui (CHA University School of Medicine, Republic of Korea)
A-0010	**1205-P30**	December 5 (Sat)	15:40 - 16:00 (20')	Prolonged interval between sibling embryo transfers impairs clinical pregnancy outcomes following assisted reproduction technology	Meng Wang (Tongji Hospital, China)
A-0014	**1205-P31**	December 5 (Sat)	15:40 - 16:00 (20')	Optimizing prediction model for day 5 embryo survival rate in assisted reproductive technology: data processing, machine learning, and dimensionality reduction	Chuang-Yen Huang (Tri-Service General Hospital, Taiwan)
A-0130	**1205-P32**	December 5 (Sat)	15:40 - 16:00 (20')	Generative artificial intelligence of sympathy and sociality: digital twin approaches on pregnancy intention and birth outcome	Sun Joo Park (Korea University College of Medicine, Republic of Korea)
A-0045	**1205-P33**	December 5 (Sat)	15:40 - 16:00 (20')	Enhancement of ovarian function and oocyte capacity in aged mice using PPARγ regulation	Mi Seon Park (CHA University Fertility Center Gangnam, Republic of Korea)
A-0113	**1205-P34**	December 5 (Sat)	15:40 - 16:00 (20')	Reversible regulation of ovarian cell aging by Extracellular Matrix Stiffness	Ye Jin Hwang (CHA University, Republic of Korea)
A-0090	**1205-P35**	December 5 (Sat)	15:40 - 16:00 (20')	Hypoxia-Preconditioned Extracellular Vesicles Enhance Ovarian Resilience to Chemotherapy Through Granulosa Cell Protection	Heeseon Yang (Seoul National University College of Medicine, Republic of Korea)
A-0036	**1205-P36**	December 5 (Sat)	15:40 - 16:00 (20')	Association Between Final Total Motile Sperm Count and Live Birth After First Stimulated Intrauterine Insemination in Women Younger Than 35 Years	Hwa Yeong Kim (CHA University Global IVF Group, Republic of Korea)
A-0086	**1205-P37**	December 5 (Sat)	15:40 - 16:00 (20')	Characterization of cytogenomic abnormalities underlying early pregnancy loss by low-pass genome sequencing	Ting Liu (The Chinese University of Hong Kong, Hong Kong, China)
A-0114	**1205-P38**	December 5 (Sat)	15:40 - 16:00 (20')	Clinical and ongoing pregnancy outcomes after single euploid and mosaic blastocyst transfer according to mosaic type and level	Eun A Park (CHA University Fertility Center Seoul Station, Republic of Korea)
A-0040	**1205-P39**	December 5 (Sat)	15:40 - 16:00 (20')	Clinical Efficacy of N-Acetylcysteine in Women with Endometriosis-Associated Pelvic Pain: A Systematic Review and Meta-Analysis	Christopher Ray Ong (St. Paul's Hospital of Iloilo, Inc., Philippines)
A-0057	**1205-P40**	December 5 (Sat)	15:40 - 16:00 (20')	Spontaneous Primary Vulvar Endometriosis in a Primigravid Mother: An Extremely Rare Presentation During Pregnancy	Christopher Ray Ong (St. Paul's Hospital of Iloilo, Inc., Philippines)
A-0041	**1205-P41**	December 5 (Sat)	15:40 - 16:00 (20')	Primary Uterine Monophasic Synovial Sarcoma in a Young Nulligravid: A Rare Case Report	Christopher Ray Ong (St. Paul's Hospital of Iloilo, Inc., Philippines)
A-0169	**1205-P42**	December 5 (Sat)	15:40 - 16:00 (20')	Differential Susceptibility to Intrauterine Adhesion Following Standardized Uterine Injury Across Estrous Stages in Mice	Xun Shi (University-Town Hospital of Chongqing Medical University, China)
A-0108	**1206-P01**	December 6 (Sun)	10:25 - 10:55 (30')	Enhancing preimplantation genetic testing for structural rearrangements (PGT-SR) by SNP-based comprehensive PGT method	Eun-Mi Hwang (CHA Biotech, Republic of Korea)
A-0084	**1206-P02**	December 6 (Sun)	10:25 - 10:55 (30')	Ribosome Biogenesis and Protein Synthesis Inhibition During Preimplantation Development: Implications for Embryonic Programming and Metabolic Disease	Jannatul Ferdous Jharna (University of Yamanashi, Japan)
A-0064	**1206-P03**	December 6 (Sun)	10:25 - 10:55 (30')	The effect of shrinkage of hatching/hatched blastocysts after warming on pregnancy rates in frozen embryo transfer cycles	JaeHun Choi (Mamapapa&Baby Ob/Gy Clinic, Republic of Korea)
A-0068	**1206-P04**	December 6 (Sun)	10:25 - 10:55 (30')	Comparative Analysis of Diagnose and Clinical Outcomes Between Two PGT-A Platforms: Primary Template Amplification with CNV/SNP vs. Whole Genome Sequencing with CNV	Chea Gook Lee (Liora Fertility Center, Republic of Korea)
A-0054	**1206-P05**	December 6 (Sun)	10:25 - 10:55 (30')	Is air quality in IVF laboratories optimized for embryo culture also optimal for embryologists?	Soyeon Nam (Liora Fertility Center, Republic of Korea)
A-0048	**1206-P06**	December 6 (Sun)	10:25 - 10:55 (30')	Real-world Effectiveness and Safety of Individualized Follitropin Delta for Ovarian Stimulation in Korean Women: A Prospective Observational Study	Chang-Woo Choo (Seoul Maria Fertility Center, Republic of Korea)
A-0063	**1206-P07**	December 6 (Sun)	10:25 - 10:55 (30')	Comparable Pregnancy Outcomes After Day 5 vs. Day 6 Transfer in Natural Cycle FET Using Hatching/Hatched Blastocysts	Min Ji Kim (Mama Papa & Baby OB-GYN Clinic, Republic of Korea)
A-0074	**1206-P08**	December 6 (Sun)	10:25 - 10:55 (30')	Peripheral Natural Killer cell and IVF outcomes across Infertility, Fertility Preservation, and PGT-M patients	Sunyoung Kim (Seoul National University Hospital, Republic of Korea)
A-0121	**1206-P09**	December 6 (Sun)	10:25 - 10:55 (30')	Reframing IMSI Selection in PGT-A Euploid Single-Thaw Single FET	Minhee Kang (CHA University Fertility Center Seoul Station, Republic of Korea)

KSRM 2026 Poster Presentation List (as of November 13)

Abstract No.	Board No.	Presentation Date	Discussion Time	Abstract Title	Presenter Information
A-0159	**1206-P10**	December 6 (Sun)	10:25 - 10:55 (30')	Anti-β2-glycoprotein I/HLA-DR Antibodies in Recurrent Implantation Failure and Recurrent Pregnancy Loss: A Prospective Cohort Study of Prevalence and Embryo-Transfer Outcomes	Heelim Lee (CHA University Fertility Center Bundang, Republic of Korea)
A-0147	**1206-P11**	December 6 (Sun)	10:25 - 10:55 (30')	Comparison of Pregnancy Outcomes Based on the Day of Thawing Prior to Transfer in Frozen-Thawed Blastocyst Transfer Cycles	Gyeong Ri Nam (Best of ME Fertility Clinic, Republic of Korea)
A-0125	**1206-P12**	December 6 (Sun)	10:25 - 10:55 (30')	Bioprinted Organotypic Endometrial Niche Instructs Endogenous Regeneration and Fertility Restoration	Danbi Lee (CHA University, Republic of Korea)
A-0079	**1206-P13**	December 6 (Sun)	10:25 - 10:55 (30')	Maternal Age Overrides Ovarian Reserve and Embryo Quality in Predicting Blastocyst Euploidy: A GEE-Based Analysis Across a Wide Age Range	Hyoung-Eun Ryu (CHA University Fertility Center Seoul Station, Republic of Korea)
A-0100	**1206-P14**	December 6 (Sun)	10:25 - 10:55 (30')	Development of a PRP-Alginate 3D Culture Platform for Generating Fertilizable Oocytes from Immature Follicles: Insights into PRP-Mediated Reproductive Signaling	Jungyoung Yoo (Seoul National University College of Medicine, Republic of Korea)
A-0161	**1206-P15**	December 6 (Sun)	10:25 - 10:55 (30')	Clinical Outcomes and Utility of Next-Day Euploid Embryo Transfer Following Post-Warming PGT-A	Tae Eun Kim (Best of ME Fertility Clinic, Republic of Korea)
A-0104	**1206-P16**	December 6 (Sun)	10:25 - 10:55 (30')	MIT-001 Ameliorates Age-Related Ferroptosis-Associated Mitochondrial Dysfunction and Enhances Preimplantation Embryo Competence in Aged Female Mice	Sung Won Jang (CHA University, Republic of Korea)
A-0123	**1206-P17**	December 6 (Sun)	10:25 - 10:55 (30')	Comparison of clinical outcomes between transferring frozen-thawed cleavage-stage embryos, blastocyst derived from frozen-thawed cleavage-stage embryos and frozen-thawed blastocysts.	Shermaine Ong (KKH, KKIVF, Singapore)
A-0140	**1206-P18**	December 6 (Sun)	10:25 - 10:55 (30')	Maternal Age Modifies the Association Between PGT-A and Clinical Pregnancy in Frozen Embryo Transfer Cycles: A Three-Year Cohort Study	Yi-Rong Lee (Taipei Fertility Center, Taiwan)
A-0031	**1206-P19**	December 6 (Sun)	15:50 - 16:10 (20')	EFFECTS OF NICOTINAMIDE MONONUCLEOTIDE (NMN) ON HUMAN SPERM MOTILITY AND MITOCHONDRIAL MEMBRANE POTENTIAL (MMP)	Minhee Ham (Liora Fertility Center, Republic of Korea)
A-0053	**1206-P20**	December 6 (Sun)	15:50 - 16:10 (20')	Comparing Traditional and Automated Semen Analysis Techniques: Implications for Clinical Diagnostic Concordance	A Reum Lee (Seoul IVF Clinic, Republic of Korea)
A-0092	**1206-P21**	December 6 (Sun)	15:50 - 16:10 (20')	Effect of Severe Teratozoospermia on Fertilization and Embryo Developmental Potential in Conventional Insemination	Sun Ji Lee (Creation & Love Women's Hospital, Republic of Korea)
A-0073	**1206-P22**	December 6 (Sun)	15:50 - 16:10 (20')	GLP-1 Receptor Agonists and Aromatase Inhibitors in Men with Metabolic Syndrome Pursuing Fertility: A Comparative Literature Review	Vellyana Lie (Airlangga University, Indonesia)
A-0101	**1206-P23**	December 6 (Sun)	10:25 - 10:55 (30')	Cell-Free Nanotherapy Targeting Granulosa Cell Apoptosis for Fertility Preservation in Premature Ovarian Insufficiency	Seoyoung Cho (Seoul National University College of Medicine, Republic of Korea)
A-0038	**1206-P24**	December 6 (Sun)	10:25 - 10:55 (30')	Temporal Autophagy and Mitophagy Dynamics in Granulosa Cells during Premature Ovarian Insufficiency	Chae Eun Park (Seoul National University College of Medicine, Republic of Korea)
A-0024	**1206-P25**	December 6 (Sun)	15:50 - 16:10 (20')	Pre-treatment Semen Quality and Clinical Predictors in Patients with Testicular Cancer and Lymphoma: A Retrospective Comparative Study	Yun Soo Chung (Severance Hospital, Republic of Korea)
A-0028	**1206-P26**	December 6 (Sun)	15:50 - 16:10 (20')	Fatty acid supplementation into vitrification and/or warming solution on post-warm survival of mouse oocytes and subsequent blastocyst formation	Hye Gyeong Jeong (Korea University Anam Hospital, Republic of Korea)
A-0021	**1206-P27**	December 6 (Sun)	15:50 - 16:10 (20')	Fresh Rescue Strategy in Poor Responders: Improved Blastocyst Development by Combining Fresh and Vitrified Oocytes Despite Advanced Age and Elevated BMI	ANa Ha (Saewha Hospital, Republic of Korea)
A-0056	**1206-P28**	December 6 (Sun)	10:25 - 10:55 (30')	Persistent epithelial IL-36a recruits neutrophils via Cxcl1/Cxcl2 to disrupt the implantation window	Joohee Kim (Konkuk University, Republic of Korea)
A-0069	**1206-P29**	December 6 (Sun)	10:25 - 10:55 (30')	Growth hormone promotes endometrial regeneration and implantation through coordinated GHR?IGF1R signaling in thin endometrium	Jiwon Jo (CHA University, Republic of Korea)
A-0137	**1206-P30**	December 6 (Sun)	10:25 - 10:55 (30')	A Multi-Task Deep Learning Model Integrating Embryo Images, AI-Derived Ploidy Probability, and Clinical Features for Pregnancy Outcome Prediction After Frozen Embryo Transfer	Thi My Trang Luong (Taipei Fertility Center, Taiwan)
A-0139	**1206-P31**	December 6 (Sun)	15:50 - 16:10 (20')	Does the Addition of AI to Conventional Embryo Grading Improve the Prediction of Implantation Potential?	Hee Jung Kang (Seoul IVF Clinic, Republic of Korea)
A-0127	**1206-P32**	December 6 (Sun)	15:50 - 16:10 (20')	Melatonin and Cu/Zn superoxide dismutase 1 alter mitochondrial membrane potential in opposite directions in fresh and vitrified-warmed mouse blastocysts, independently of total ATP content	Eunah Kim (CHA University, Republic of Korea)
A-0145	**1206-P33**	December 6 (Sun)	10:25 - 10:55 (30')	Polyendocrine Metabolic Ovarian Syndrome-motivated endocrine burden and steatotic liver disease: a low-SHBG phenotype	Yunjeong Park (Yonsei University, Republic of Korea)
A-0072	**1206-P34**	December 6 (Sun)	15:50 - 16:10 (20')	Fibroblast-Derived Tenascin-C Drives Scarless Postpartum Uterine Regeneration by Promoting Epithelial Migration via Integrin αvβ6	Sangok Park (Konkuk University, Republic of Korea)
A-0105	**1206-P35**	December 6 (Sun)	15:50 - 16:10 (20')	Prepubertal exposure to glucocorticoid delays accelerated onset of puberty induced by high-fat diets in female rats	Juyoung Roh (Sangmyung University, Republic of Korea)
A-0107	**1206-P36**	December 6 (Sun)	15:50 - 16:10 (20')	Sequencing platform is associated with mosaicism classification in real-world PGT-A: a comparison of Illumina MiSeq Dx and Ion Torrent Genexus Dx	Wai Ting LUI (The Chinese University of Hong Kong, Hong Kong, China)
A-0112	**1206-P37**	December 6 (Sun)	15:50 - 16:10 (20')	Chromosome-specific pregnancy outcomes after mosaic embryo transfer: disentangling abnormality severity from chromosome identity	Sun-Nyoung Hwang (CHA University Fertility Center Seoul Station, Republic of Korea)
A-0115	**1206-P38**	December 6 (Sun)	15:50 - 16:10 (20')	Monosomy-type mosaic embryos are associated with poorer pregnancy outcomes than trisomy-type embryos after PGT-A: a covariate-adjusted analysis of 2,898 single embryo transfers	Sun-Nyoung Hwang (CHA University Fertility Center Seoul Station, Republic of Korea)
A-0042	**1206-P39**	December 6 (Sun)	10:25 - 10:55 (30')	Endometrial Microplastics and the Female Reproductive Exposome: Integrated Environmental Exposure Profiles in Women with Endometriosis and Uterine Myoma	Young Ah Kim (Ilsan Paik Hospital, Republic of Korea)
A-0023	**1206-P40**	December 6 (Sun)	15:50 - 16:10 (20')	Risk of Autoimmune Diseases Following Endometriosis: A Nationwide Korean Cohort Study	Eun Hee Yu (Pusan National University Hospital, Republic of Korea)
A-0099	**1206-P41**	December 6 (Sun)	15:50 - 16:10 (20')	Cyclical PGLYRP1 Expression in the Endometrium via Estrogen-ERα Signaling: Roles in NET Formation and the Pathogenesis of Endometritis	Jimin Lee (Konkuk University, Republic of Korea)
A-0102	**1206-P42**	December 6 (Sun)	15:50 - 16:10 (20')	Ovarian Reserve in Patients with OHVIRA Syndrome: A Retrospective Cohort Study	Min Young Park (Seoul National University Hospital, Republic of Korea)
